

Northern
Lighthouse
Board

THE COMMISSIONERS OF NORTHERN LIGHTHOUSES

Require an

ELECTRICAL/ELECTRONIC TECHNICIAN (Edinburgh)

The Northern Lighthouse Board is the General Lighthouse Authority for Scotland and the Isle of Man, established by statute to provide, maintain and inspect marine aids to navigation throughout its waters.

Travelling to any of the lighthouses within the NLB estate, you will work as part of a team carrying out maintenance, repair and installation work on aids to navigation and associated equipment. This will involve working on a wide range of electrical, electronic and mechanical plant which includes PLC based control systems, data communication systems, solar and diesel power generation plant and electrical installations to the current IEE wiring regulations. Training will be provided where required. Your contractual place of work will NLB's Facilities in Edinburgh.

You will work well as part of a team and have relevant electrical qualifications and experience. There is a requirement to travel, and stay at remote locations (for up to 12 days at a time), often at short notice. An On-Call Rota is in operation and you will be required to participate in this rota system one weekend every six weeks.

The salary range for this role is from £31,249 per year rising to £34,381 after the first year in post. An annual consolidated overtime allowance of £5,469 in your first year rising to £6,017 in your second year is paid in recognition of additional hours worked outwith contractual hours. The NLB will provide you with a wide range of training to enable you to carry out your role effectively including professional development opportunities.

The NLB offer a career average occupational pension scheme and generous leave arrangements.

For further details and an application form please e-mail: jobs@nlb.org.uk or download an application from our website (www.nlb.org.uk/InformationCentre/WorkingForUs/Vacancies/)

CLOSING DATE: Tuesday 31st May 2022

The NLB is an Equal Opportunities employer

Electrical/Electronic Technician

GENERAL INFORMATION FOR APPLICANTS

Dear applicant

Please find the enclosed Application Form for Employment with the Northern Lighthouse Board.

The form has been designed to gain the information we require in the most practicable format and to put all candidates on an equal footing. It plays a key part in our selection process and we will use this information to decide how you meet the job requirements and whether you will be invited for interview. We will not make assumptions about your achievements and abilities. Please therefore state clearly on the form how you meet the requirements set out in the Role Profile/Job Description.

Please note the following:

- If you require for the enclosed form to be resent to you in a different format so that you can fill it in more easily, please contact myself at the above address. Examples are a format in Braille, large print or submission via tape recording.
- If you are using our standard application form please use either black ink or type so that the form can be clearly photocopied for short listing/the interview panel.
- You should complete all sections of the application form and equal opportunities form.
- You may submit a CV in addition to your completed application form if you feel that this contains additional relevant information.
- If you continue your application on further sheets of paper please make sure you indicate this clearly on the form and please label each additional sheet clearly with your name, the index number and title of the post.
- Applications must be returned no later than the closing date stated on the advert.

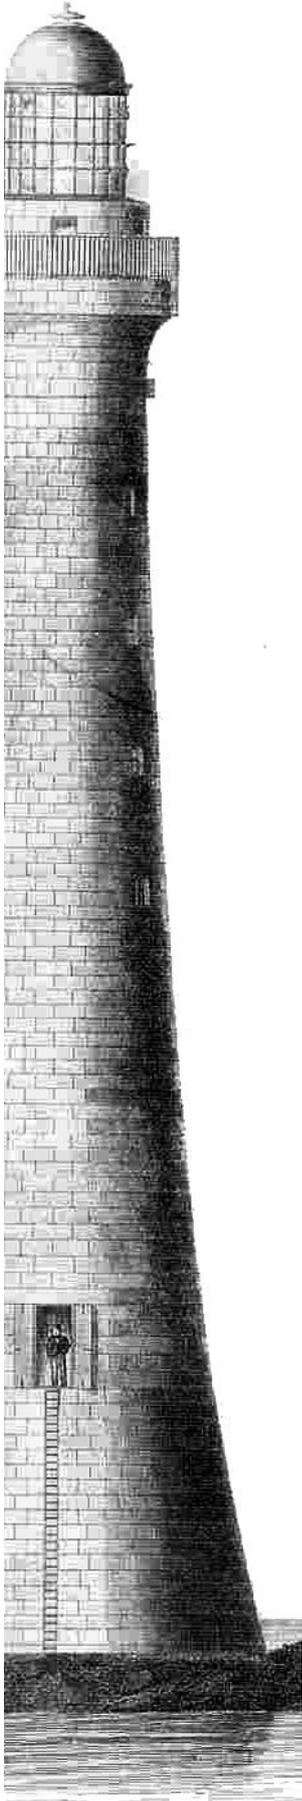

Please be aware that the position may have been advertised over several weeks, and in several locations nationally and occasionally internationally. Our goal is to make a sound decision as soon as we are able. We will be in touch again if there are going to be any significant delays.

Finally, thank you in advance for the time spent preparing your application. We look forward to receiving it in due course.

Yours sincerely

Rachel Aitken
HR Adviser

Email: Jobs@nlb.org.uk

INTRODUCTION

The Northern Lighthouse Board (NLB) has provided a vital safety service to mariners since 1786. Originally tasked with the construction of just four lighthouses: Kinnaird Head, North Ronaldsay, Scalpay and Mull of Kintyre, it gained a reputation for engineering excellence as the number of lighthouses increased in and around the Scottish coast. This was largely down to Robert Stevenson (1772-1850), a civil engineer who was responsible for the design and construction of at least 15 of NLB's major lighthouses.

Today, the organisation, whose headquarters are in Edinburgh's city centre, currently operates and maintains 206 lighthouses and 167 buoys in Scotland and the Isle of Man, as well as providing radio aids to navigation. Their service makes a significant contribution to the prevention of accidents and incidents around the coastline, safeguarding not only lives and property, but also protecting the marine environment which is crucial to the economy of Scotland and the Isle of Man.

As well as their Edinburgh HQ, NLB has a base in Oban, technicians based in Inverness, Shetland and Orkney and two ships. The ships, NLV PHAROS and NLV POLE STAR carry out buoy work, deliver stores and supplies to lighthouses and inspect navigation aids on oil and gas rigs in the Scottish sector. PHAROS also carries out helicopter operations, hydrographic surveying and wreck finding. Between the two ships, there are 57 crew members, four Engineers and four Masters who work on a rotating shift pattern.

NLB is an equal opportunities employer and positively encourages applications from suitably qualified and eligible people regardless of age, sex, sexual orientation, race, religion and disability.

GENERAL INFORMATION FOR APPLICANTS

A successful candidate may only be appointed after satisfactory references have been received from 2 referees to whom the candidate is well known and the satisfactory completion of enquiries into his/her health and character. A medical examination by the Board's Medical Advisor may be required.

NLB LIGHTHOUSE TENDERS

The NLB Tender Fleet consists of two ships based in Oban. **NLV POLE STAR**, gross tonnage 1174, is powered by three 920 kW 8 cylinder Cummins diesel engines and has a complement of 15. In March 2007 the NLB took delivery of a brand new technologically advanced Multi-Function Tender (MFT), **NLV PHAROS**. **NLV PHAROS**, gross tonnage 3672, is 84.m long, 16.5m wide and has a design draft of 4.25m. She has a complement of 18. More details on the ships can be found at www.nlb.org.uk

The Tenders are specifically designed and equipped for maintaining lighthouses, buoys and beacons, and are also used for transporting personnel, stores, equipment and materials. This work is often carried out in areas of water avoided by other seafarers so marine staff require excellent boat handling skills. A contract helicopter provides an alternative means of transport.

MAIN CONDITIONS OF EMPLOYMENT

PLACE OF WORK	Your contractual place of work will be the NLB's Headquarters in Edinburgh and you will travel to any of the lighthouses within the NLB estate.
SALARY	NLB Staff are paid monthly in arrears, by credit transfer, normally on the 26th day of each calendar month. The current pay band for this post is £31,249 per year rising to £34,381, plus a consolidated overtime allowance.
STATUS AND PROBATION	The post is full-time and permanent. New entrants are required to complete a probationary period of six months, to the satisfaction of the Board, before an appointment can be confirmed. After successful completion of a probationary period there is a continuing annual staff appraisal system.
LEAVE	Leave year runs from 1 April to 31 March. Paid annual leave allowance is 25 days on commencement (pro-rata) rising to 30 days (pro-rata) after 5 years' total service. Plus 11½ Public/Bank Holidays per year.
HOURS	In Edinburgh, normal hours of work are from 8.45am to 5.09pm Monday to Friday with one hour off for lunch. A flexible working hours system is in operation.
SMOKING	Smoking at work is only permitted in designated areas.
PENSION	Pension benefits are available under the Principal Civil Service Pension Scheme (PCSPS) administered by MyCSP on behalf of the Cabinet Office. Most new entrants have a choice of pension arrangements, between the alpha scheme (pension benefits earned each year based on pay in that year and index linked) and a money purchase arrangement – partnership pension account , which some new entrants may only be able to join. All eligible new entrants will be entered into the alpha scheme from their first day, paying employee contributions based on the level of their pensionable earnings, unless they have registered their choice to join the partnership pension account or decided to opt out of Northern Lighthouse pension arrangements altogether prior to their first monthly payroll payment. <i>There are arrangements for transferring pension rights to and from other pension schemes, and for increasing scheme benefits by the payment of additional voluntary contributions or buying added pension.</i>
CLOSING DATE	Deadline for receipt of completed applications is Tuesday 31st May 2022.

These notes are for guidance only and should not be taken as an authoritative statement of the conditions of employment

Electrical/Electronic Technician

Purpose: To assemble, install, commission, test, repair and maintain AtoN systems to provide a reliable service to mariners			
Key result area	Success factors	Skills and knowledge	Competencies
<ul style="list-style-type: none"> • Install electrical, electronic, communications, control and mechanical equipment to ensure equipment functions reliably and to specification (* See list of technologies below) • Configure, commission, fault-find, calibrate and test installations to ensure equipment functions reliably and to specification • Use Task Register and CAMM to report on work done to ensure work is controlled • Make and document on-site modifications to ensure all equipment functions reliably and that changes are controlled. • Evaluate and feedback information on installations, equipment, spare holdings etc to ensure proactive work can be planned • Ensure allocated resources and logistics (equipment, finance, tools, travel, victuals, and accommodation) are sufficient for task in hand • Maintain up to date knowledge and skills of relevant technologies* to enable high quality of service to be delivered. • Make on-site reports on defects and spares making recommendations for necessary action covering all aspects of the station • Carry out supervision/snagging, providing advice and agreeing variations where necessary on site. • Respond to outages at short notice 	<ul style="list-style-type: none"> • Meet requirements of "Notice to Mariners" • Meet IALA availability standards • Installation quality • Reduction of repeat visits • Use of resources within constraints – budgets, timescales (response and installation to programme) • Housekeeping standards • Facilitate project, maintenance and fault rectification success • Site Safety • Work harmoniously with other team members • Compliance with Regulations/ legislation • Effective solutions • Effective management of time 	<ul style="list-style-type: none"> • Relevant Apprenticeship or equivalent training • HNC in electrical engineering or equivalent subject • Experience and skills in relevant technologies* • Good team worker • IT user • Ability to use admiralty charts, tide tables and OS maps • Scada/PLC skills • Compliance with Training Matrix • Supervisory skills with respect to contractors • Good interpersonal skills • Have background knowledge of all aspects of engineering and facilities maintenance (plumbing, drainage, glazing, mechanical engineering, joinery, gas and ventilation systems) multi skilled 	<ul style="list-style-type: none"> • Building Relationships (2) • Commitment (6) • Customer Service (8) • Flexibility (2) • Pro-activity (4) • Self Confidence (6) • Team Working (4)

<ul style="list-style-type: none"> • Operate as NLB representative/lead person when required • Prioritise pre-planned tasks when on site. Undertake RCM, un-scheduled maintenance and update records to ensure equipment works reliably and failures are quickly rectified and recorded. • Supervise and support contractors and NLB staff including on the job training to allow them to deliver their contractual obligations • Manage site safety arrangements, maintaining records, carrying out dynamic risk assessments as required to maintain health and safety compliance on-site. • Liaise and consult with internal and external third parties in order to facilitate site • works and maintain NLB brand/image. • When requested by Line Manager create documents and procedures for the preventative maintenance and repair of equipment maximizing availability and meeting legal obligations (Maintenance staff only) • Contribute to a draft annual preventative maintenance program for the area, to maintain AToN reliability and optimize service of the plant (maintenance staff only) • Advise on the accuracy and suitability of H&S issued documents relevant to area of work ensuring best practice and quality standards are raised. • Provide input to safety documentation for the use of NLB personnel and contractors to control any risks and ensuring best practice is followed 	<ul style="list-style-type: none"> • Risks documented and communicated 	<ul style="list-style-type: none"> • User of preventative maintenance systems & procedures • Effective written and verbal communication skills • In depth working knowledge of stations as required by role 	
--	---	--	--

Dimensions: Requires working away from home for up to 12 day periods at short notice. On site with often no continuous form of communications in inhospitable environments, limited living facilities and physically demanding. Manages T&S Budget/allowance up to £1k. Will be required to handle dangerous goods. Work on on-call system. Required to regularly work in remote locations without direct supervision
